- *The surprise of the robber*

-*How are the parents of the children after the massacre of Utoeya 2010*

*** The surprise of the robber**

Last Wednesday a robber came to steal and ended up calling the police. Upon entering a house apparently uninhabited in Hamilton, New Zealand, a thief of 26 had a surprise: a corpse hanging in the dark. Horrified, he called the police screaming. His screams alerted the neighbours, who thought it was a domestic dispute and called the police. The man made the gruesome discovery early on Wednesday when he tried to

enter the empty house in suburban Fairfield. Hamilton Police said that when contacting the police after helping authorities in their investigations to raise the alarm, the man had been arrested but not charged and was released after helping authorities in their authorities.

Kimberly Pillajo, 12

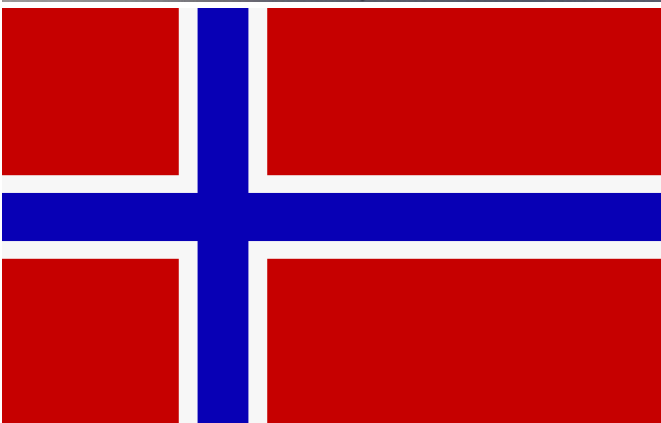

How are the parents of the children after the massacre of Utoya 2010?

The parents of the children who died in the massacre of Utoya aren't feeling very well. Most of them are in a therapy because they lost their children. Two Years ago Andreas Breijwik killed 77 teenagers and adults. The teenagers were in a summer holiday camp in Utoya. The parents thought the place was safe, but it wasn't.

Andreas Breijwik has been in prison for two years now. For most parents this isn't enough. They want to have their children back but everyone knows that the parents will never see their children again. But the way to the future without them is hard and not all parents are coping all right now. Some are able to work and think all the time about their kids but they are okay. Many tourists are visiting Utoya.. .

Animation

Principles of animation

In 1981, Ollie Johnston and Frank Thomas published the book *The Illusion of Life: Disney Animation*. In this they took together the experience of leading animators from The Walt Disney Company, which developed since the 1930s to create believable animation.

Animated cartoon:

The starting material of the individual images, many drawings, image by image. These are now usually scanned and digitally edited. But the drawings can also be recorded directly from the camera, and it cannot be drawn with pencil on paper, but any drawing or painting technique is possible. In the simplest version, these are stick figures, as they are happy to flipbook. As "Stick Figure Theatre" stick figure parodies were a part of cinema classics of the 80s MTV show *Liquid Television*, today they are often created different from each other and, taken in the correct order on film, generating a fluid movement as a vector animation in Flash or other programs.

1 of 5 of the best animated movies, I think "Spirited Away" is best because it is very exciting. I myself have seen it several times and find it still always exciting. I would be the movie "Spirited Away" all other recommended.

One of the best animation companies is Blue Sky Studios:

They make a lot of good animation movies as for example "Ice age" 1-4, "Rio" and "Epic hidden kingdom"

Funny Stories

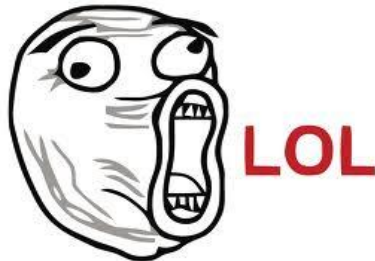

Stories of John, by Lucie Wolter

The man with the green hair brush

In a little village near the South of France, lived a little boy. He had got two sisters, a dad and an old mum. His old mother was very ill. One day, she died. The father was so sad, that he killed himself. The three children were

so alone. Suddenly, their uncle came. But he was a drinker and the children were afraid of him. One day, the uncle was simply gone away. The children were alone, again. They didn't know what to do. Days and days went by, and on a sunny day, a man with a green hair brush came to the children. He was called John. John had a great idea. He said "We can make biscuits!"

The three children looked confused. But then, the boy said "Great idea! Let's go!" The four ate the biscuits.

John of the poor

One day John was sitting in a pub and drank a beer. Suddenly, a big man came in and drank John's beer. John cried and cried. The big man asked John "Why do you cry so loudly? I have only been drinking your beer! What is so bad about that?"; "Oh!" John said. "I have such bad luck! First I wanted to hang myself, but then the robe broke. It was so bad!" "And then? It isn't bad!" The big man said. "Oh then I wanted to get run over by a train. But suddenly, there was a redirection." "Don't cry little John, it isn't so bad. Tell me more!" John began to tremble and almost cried. "Now, I wanted to drink a poisoned beer, and you emptied it!!!"

John, the Mental Patient

John and David were both patients in a mental hospital. One day, while they were walking, they passed the hospital swimming pool and David suddenly dove into the deep end. He sank to the bottom and stayed there. John promptly jumped in and saved him, swimming to the bottom of the pool and pulling David out. The medical director came to know of John's heroic act. He immediately ordered that John would be discharged from the hospital as he now considered him to be healthy. The doctor said: "John, we have good news and bad news for you! The good news is that we are going to discharge you because you have regained your sanity. Since you were able to jump in and save another patient, you must be mentally stable. The bad news is that the patient that you saved hung himself in the bathroom and died anyway." John replied: "Doctor, David didn't hang himself. I hung him there to dry!"

Games

Age of Empires 3

Age of Empires 3 is a strategy game which was released 4th November 2005 in Europe.

On the opening screen

When you enter the game you can choose between:

- Learn to play
- Single player
- Multiplayer
- Help and Tools
- Exit

Learn to play:

In the section “Learn to play” you learn how to move units gather resources and finally to kill your enemy.

Single player:

In the section “Single player” you play on your own against or with computers.

Multiplayer:

In my opinion the best part of the game. Here you can play against or with other players all over the world. I often play it online against some friends.

Help and Tools:

The main thing of this is the scenario editor; there you can produce your own map and playing system.

Before the game starts

Before the game starts you have to set the options to your preferences.
For Example: You have to think which sort of game you want to play:

- Deathmatch
- Supremacy
- Scenario

When you play deathmatch, you have many resources at the beginning to rush to your enemy.

When you play supremacy you have got barely anything of every resource

When you play scenario.....the game offers many scenarios which were made from Age of Empires Fans and they're all different.

Then you have to think of your civilisation, the options are:

- Spanish
- British
- French
- Portuguese
- Dutch
- Ottoman
- German
- Russian

The civilisation matters - you will see this at the latest when you're in the game.

The game has got two add ons which I don't want to describe in detail; I just tell you what changed in one sentence.

1st add on: Age of Empires 3 The War Chief (beginning November 2006)

You can now play as Indian civilisations:

- Aztec
- Mohawk
- Sioux [Su]

2nd add on: Age of Empires 3 The Asian Dynasties (30th October 2007)

You can now play as Asian civilisations:

- Japanese
- Chinese
- Indian

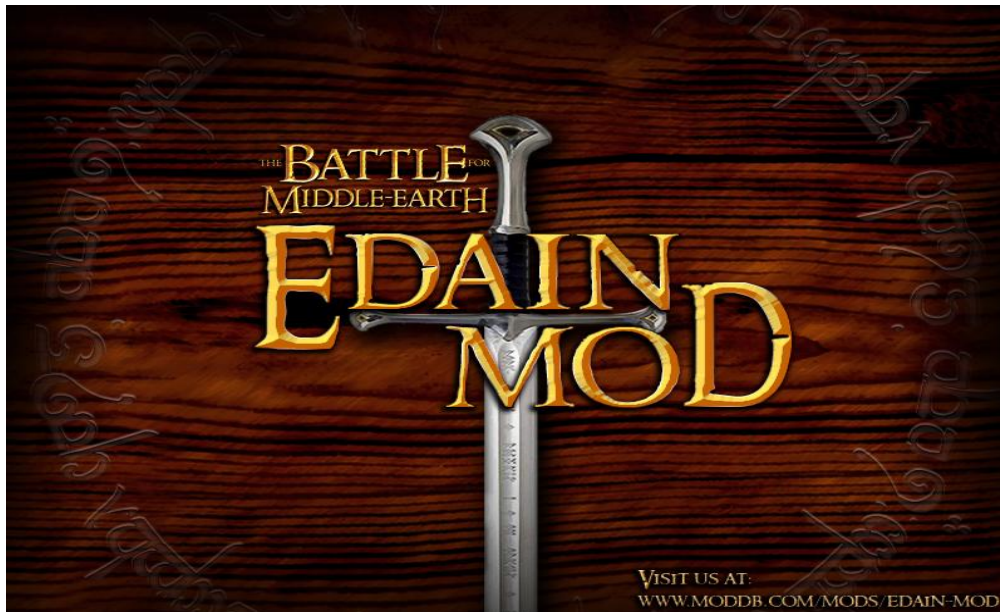

Assessment:

The game offers a great gameplay and graphic, the scenario editor for making dreams true and the online multiplayer feature for playing with people all over the world.

The game was OK without add ons, but the add ons made the game nearly perfect and the music is very, very good. You maybe don't listen to it at first, but when there's no music you will realise that the music is a big part of this game. I would have given it 9.5 out of 10 but the units don't look good if you zoom, without zoom they look great so I give it 9 out of 10.

Edain modification

The edain modification is a modification for the game "The battle for middle-Earth". The game was released in 2005 by Electronic Arts. It sold a few million times. In 2008 a group of students had the idea to program a modification that will be a great maybe the greatest modification in Germany.

<http://media.moddb.com/images/downloads/1/47/46228/englishsplash.jpg>

This is the logo of the mod.

Now more about the game. The game is about the books by Tolkien "The Hobbit" and the "Lord of the Rings". In this wonderful game you can fight with the factions of Middle-Earth like Gondor, the Elves or the Dwarfs. The aim of the game is to destroy your opponent and all things that he owns.

http://www.herr-der-ringe-film.de/v3/media/galerie/sonstiges_1/sonstiges12/edain_imladriswarriors.jpg

Here you can see some elven warriors which you can play in the mod; they are wonderful aren't they?

About the mod:

The first mod version was released on 2 March 2008. This was the version 2.0. It was downloaded about 3000 times. Now 5 years later the mod was released in version 3.81 and downloaded about 55000 times!!! And the best of all is that the mod is free. Some people say they can sell the mod with the name "Battle for Middle-Earth 3" – it is that good.

http://modding-union.com/updates/edain2/upload/steinbruch_1368708149.jpg

Here is a building that you will be able to play in the new version 4.0. It's a dwarf quarry

Let's start the game

Now I will tell you something about the game and the gameplay. First you start the game then you can choose

Do you want to play an excited multiplayer game against your friends or do you want to play alone against the computer. Before you play you have to choose one faction.

- Imladris (Elves)
- Dwarves
- Gondor
- Rohan
- Isengart
- Lothlorien (Elves)
- Mordor

-Misty Mountains
or Angmar
My Favourite faction is Rohan.

http://modding-union.com/updates/edain2/rohan_festung.jpg

When you choose Rohan that is your building at the start. It's a fortress and you also have two startunits as builders. With the builders you can build buildings like a barrack or a farm. The farm produces money that you need and in the barrack you can buy strong warriors. With the warriors you have to destroy your opponent. That's the important things in the game.

Now at the end I want to add a poem by Tolkien maybe you know it

All that is gold does not glitter,
Not all those who wander are lost;
The old that is strong does not wither,
Deep roots are not reached by the frost.
From the ashes a fire shall be woken,
A light from the shadows shall spring.
Renewed shall the blade that was broken
The crownless again shall be king.

Titan fall

http://www.bubblews.com/assets/images/news/1142195536_1371775773.jpg

<http://www.technobuffalo.com/wp-content/uploads/2013/06/E3-2013-EA-Titanfall-037.jpg>

Players fight either on foot as free-running "pilots" or inside agile mech-style walkers called "Titans" to complete team-based objectives. The game is multiplayer-only, but injects single-player elements such as plot, character chatter, and npcs (non player characters) into its matches.

Titanfall is known for multiplayer battles. So there isn't a single player campaign! The Teams are too big for single player because the npcs will be based on cloud-gaming. Not many people would play the single player mode so it doesn't give you rewards.

Titanfall's multiplayer has been confirmed with new gameplay footage at Microsoft's E3 press conference. It will support 64 players on Xbox One and PC.

The Titans are the large mechs that Titanfall will revolve around. Each will have their own weapons and gadgets.

The maps will be Fracture (a fuel depot), Lagoon and Angel city (a futuristic city).

BATTLEFIELD

4

The sequel of the famous Battlefield series is coming in autumn. For every fan of awesome fights in the air, on water and on land get the newest version of Frostbite, Frostbite 3.0, some surprises like lifts. Err... lifts? Yes you have read correctly, Frostbite 3.0 calls it Levelotion. It's the new feature of Frostbite. There are many interactive activities in the multiplayer modus to do. For Example you can go by lifts on a skyscraper and the craziest is you can destroy it. There are very new upgradeable pistols.

A new squad mode is there too. If the squad works together and has a good tactical appreciation you can upgrade your squad with ammunition or more grenades. All the upgrades will be there until the whole squad disappears.

And the new commander mode is back too. Its other we can remember but Frostbite 3.0 promises if you play the commander mode you won't play on the battlefield. The commander tells the squad what they have

to do. If the squad-leader asks for an artillery strike the commander will accept it and fire on the desired place. But the bad thing is that the commander experiences nothing of the main fight. The commander modus also runs on a tablet PC.

The campaign is very interactive too. You will be able to go into cars and get out, too. It's much different to the campaign of Battlefield 3. In some missions on the water there are even waves but unfortunately the weapons on vehicles have restricted ammunition.

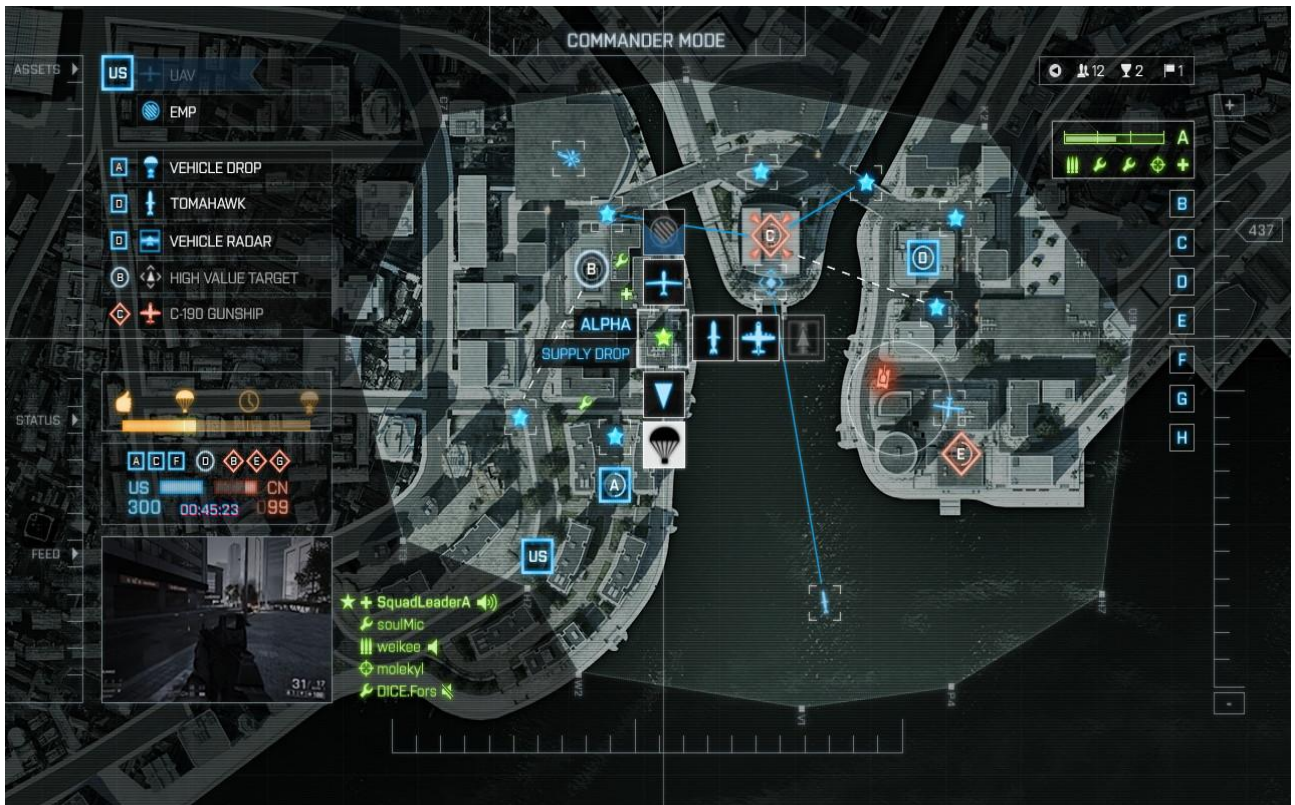

We think the game is able to be the best game ever, but that will be decided when the game is released in autumn.

Our mark of 10 points is 7.9 points.

Buy the game and play the game.

Your Gamefreaks xD

Assassin's Creed Blackflag

IV

The sequel of the legendary Assassin's Creed series is coming in October.

The cities of the game are Havana (Cuba), Kingston (Jamaica- which is ruled by the British crown) & Nassau (it's the pirate's capital). Edward Kenway, the main character, is a pirate who was trained by assassins. His main ship is called Jackdaw. In the story you will be able to equip your ship. You can buy it for PC; Play station 3, Xbox 360, WiiU and also the next generation consoles Play station 4 and Xbox one.

It'll be published by Ubisoft and PEGI says it'll be for adults only. In the game there are real historic persons, for example: Benjamin Hornigold, Calico Jack, Anne Bonny, Charles Vane & the most famous pirate *Blackbeard*. Some new ingame features are that you can wear four pistols and two swords. You can discover old Maya ruins and get treasures. 60% of the game is on islands and 40% are on high sea and you can enter other ships.

All in all we think that game will be very very nice.
Our mark of 10 points is 8,1p.

Buy the game and play the game.

Tennis

Tennis is a popular sport, which is played all over the world.

Tennis was founded by Walter Clopton Wingfield in 1874, it is played by two or four players, they can be male or female.

The most important tournaments are, the Australian Open, French Open, Wimbledon and US Open. We call them Grand Slams.

You play tennis on different courts.

Every player tries to hit the ball over the net into the other field. But: The ball isn't allowed to bounce twice, or to leave the court. You win a set, when you win 6 matches. When the score is 6-6, it's Tiebreak, which you have to win with 2 points ahead. You win when you have two sets, in Grand Slams 3.

At the moment, the most famous players are, Roger Federer, he won 17 Grand Slams, Rafael Nadal, he won 12 Grand Slams and Novak Djokovic, he won 6 Grand Slams, and is first in the world ranking list. The best female player is ever, is Steffi Graf, she won the Golden Slam that is when somebody wins all Grand Slams, and Olympia. The best German players at the moment are Tommy Haas and Angelique Kerber.

BASKETBALL

Basketball is a sport which is played by two teams of five players on a court. The objective is to shoot a ball through the basket at each end. Basketball is one of the most played and watched sports.

A team can score a goal by shooting the ball through the basket during the match. A field goal is worth two points for the shooting team, if a player touches the basket, then the team can shoot from the three point line. The team can get three points, if the player is behind the three points line. The team with most points at the end of the match wins, but extra time may be issued, if the game ends with a draw.

In early December 1891, a Canadian, whose name is James Naismith, invented basketball and played it for the first time with his students in a sports hall near Springfield.

At the moment the best German player is Dirk Nowitzki and at the best American players are Kobe Bryant and LeBron James.
